

## **What is NSLDS?**

NSLDS is a comprehensive national database containing information about the federal financial aid history of students who receive federal student aid. A student is able to access and review student aid data and verify that enrollment and money data is correct.

NSLDS stores information about loans, grants, students, borrowers, lenders, guaranty agencies, schools, and loan servicers. It provides an integrated view of Title IV loans and grants during all stages of their life cycle, from aid approval through disbursement, repayment, delinquency, and closure. It also includes student enrollment data.

Access NSLDS to verify accuracy of your financial aid data @
