

CHU MBA

Emphasis in Health Care Management

The Colorado Heights MBA with Emphasis in Health Care Management prepares students with a solid foundation of knowledge, enabling graduates to advance in healthcare careers such as healthcare administration, finance, policy, marketing, and information management. The Health Care Management specialization is specially designed to meet the needs of physicians, nurses, healthcare administrators, and other busy medical professionals who wish to obtain an advanced Master's of Business Administration degree specifically tailored to the modern healthcare industry. Skills such as leadership, management, critical thinking, strategy development, and economics are an integral part of the program.
